CITY ITEMS.

THE NEW PUBLIC SCHOOL IN FOURTEENTH STREET .- The annual examination of Grammar School No. 19, which was moved into the magnificent new school building in Fourteenth street, near First avenue, about three months ago, began on Friday last, and terminated on Monday. The pupils of this school, is appears, have taken fresh courage since they have been located in their new and commodious quarters. Their numbers have increased to nearly 2,000, and after the examination 185 girls and boys were promoted to higher departments. The local and city superintendents were present, and expressed themserves pleased with the improvement.

A BLOOMING RELIC.—The old Survesant pear-tree. at the corner of Thirteenth street and Toird avenue, is in full bloom. Several of its himbs are loaded with blossoms and green leaves, imparting to the venerable trunk a juvenile appearance, and crowning its aged head with a wreath of youthful glory. This tree has become one of the old historical laudmarks of New-York. It was planted upon Gov. Stuyvesant's farm. then a long way out of New-York, considerably over two hundred years ago.

THE SHAD POLES,-The Pilot Commissioners yesterday addressed a letter to the Board of Police expressing their thanks for prompt and efficient aid on the part of the Harbor Police in removing the shad poles from the upper and lower bays.

SEWER CONTRACT .- Six proposals for the building of a sawer in Reade street from Broadway to West Broadway, were opened by the Croton Commissioners on Monday, and the contract for doing the same was awarded to John H. McCabe at \$3 324 80, his being the lowest bid.

woman, named Mary Connor, about 30 years of age, being about to become a mother, on Sanday last applied for a imission to Bellevan Hospital. She was at once taken in, and placed in what is known as the "waiting-room," where there were already several Daring the evening she was attended by the physician, who did all that was necessary for her, and having made her comfortable, left her for the night, not anticipating that a child would be born before ing. He promised to see the woman again early in the morning, and accordingly he visited her at an early hour on Monday. In reply to his question regarding her condition, the suffering woman told him that she had been seized with the pains of labor during the night, and had been delivered of a child. O turning down the bed-clothes, the physician did indeed find a child, but in what a horrible condition. The infant was dead, and its nose, the upper lip, the toes, and half the left foot, had been devoured by rate. The poor woman was a ware that her child was dead, but had no idea of its mudiated condition.

When questioned regarding the affair, she stated that shortly after the child was born she felt something which she surposed to be rate running about the bed, but she was too feeble and sick to drive them away. In her semi conscious state, she says she was a ware that a number of rate were in and about the bed for the remainder of the night, but she had no suspicion of the horrible work in which they were engaged, or she would have tried to raise an alarm. The body of the child was taken from the room and a post-mortem examination made. The lungs having been submitted to the hydrostatic test, it was assertained beyond a doubt that the child was born alive. As there was neither physician nor nurse in attendance at the birth, and the mother was helpless, it is supposed that the child may have died for want of proper attention before the rate attacked it. The other patients heard no disturbance on the part of the mother during the night, and did not know that she was in labor until yesterday morning.

Coroner Jackman commenced an investigation of the case yesterday, but owing to the sickness of the mother was obliged to postpone it for one week. It is a burning shame that in a public Hospital, like Bellevue, aix or eight women, on the eve of child-birth, should be left together for a whole night with no physician, ange, nor any other astendant to minister to their wants. We have often published the fact of dead bodies having been attacked by hordes of rate in our Station-Houses and prisons, but that they should abound in such numbers, and become so bold, and so voracions as to come into bed with the patients in our Hospitals, and devour a dead child lying beside its living mother, is a fact most astounding. Such a state of things most certainly could not exist under proper management, and some one of the officers of Bellevue Hospital is responsible for the death of this infant, The newly-created Board of Public Charities and Corrections owe it to themselves and to the public to institute a thorough investigation in the matter, and to inaugurate a better state of affairs.

DIAMOND REEF .- In the proceedings of the Common Conneil last evening it was stated that three-fourths of this reef had been removed, and that the remainder soon would be. So far, so good. There is an appropriation of \$20,000 in the tax levy to remove Coenties Reef. Why are not proposals advertised to do it, as there are responsible parties ready to under-take it at once, and who do not wish any payment until the work is done according to contract?

A HAUL OF SHIRKING CONTRACTORS .- President Stephens of the Croton Board, and others of that department, made a visit on Monday, to the various places throughout the city where contract work was in progress under their charge, for the purpose of becoming informed as to its progress, and seeing that all is done in accordance with the specifications set down in the respective contracts. They found that the trap block contractors, as a general thing, did not come up

kind of sand bedding, in some cases made nes of a poor material of trappe, and frequently left the pave-ment, when finished in a very maven condition, which might easily have been avoided, with a little care. Accordingly, both the Inspectors of the Department, whose daty it is to look after the contractors, and see that they do their work properly, and the contractors themselves, were summoned to appear at a certain hour yesterday morning, at the office of the Commissioners, in the Rounda, and give any good reason for departing from the specifications, if such they had. They came, and the former were informed that if they did not make the contractors perform their duty, they should all be dismissed. The cantractors were told if they did not do their work well, whether the Inspectors minded their business or not, they could not get their pay as the city could not consent to be chested. After which, they were told to depart and make another trial.

Bull's Head .- New-York, Toesday, April 24 --The great market for beef cattle, held weekly in Fortyfourth street, opened this morning with about three thousand head of boilocks in the sule pens. The general disposition on the part of the cattle brokers, and particularly of those who had bought stock on speculation, was to advance the rates current last week about half a cent net a pound, and at that, we think, a good many of the first sales were affected. The trade then toward noon grew slack, and salesmen manifesting a greater willingness to meet the bayers, prices began to settle down toward the rates of last week, particularly for the best of the stock, such as sold at about 9 29

cents net a pound.

The medium and inferior grades continued to sell a little better than last week, up to noon, when an arrival of 25 car loads by the Hucson River Road knocked prices down to about the level a wesk ago. During the afternoon the market could not be said to be very lively. Though a fair proportion of the stock was sold, a good supply of all sorts was left for the sales of the second day, with fair prospects of a little increase of the supply, and no variation of prices from those current to-day and last Wednesday; that is, 9@94c. a pound for the best, with a very few extra at 10c., and

7 a84c, for the lower grades.

A great many good fair bullocks for retail butchers have sold to-day, and will sell to-morrow, at about ! cents net a pound. The general quality of the stock in market this week is pretty good-the Western cuttle are nearly all fat, though somewhat coarse. Our report of the market, which will be made up complete to-morrow, will contain, as usual, the most full and complete information for all parties interested in this great trade, which amounts for beef cattle alone, to over \$12,000,000 a year. There is not the least prospect of any considerable rise in the price of ballocks this Spring, and if butchers will accept of a reasonable profit, everybody can afford to cut roust beef.

COMMISSIONERS OF POLICE -At a meeting of this Board, held on Toesday noon, the Presdent submitted, in accordance with the request of the Board, the revised rules and regulations for the government of the force. The document was referred to Messrs. Bowen and Bergen, with power to further revise the same, and when so revised to print and distribute to the members of the force.

Wm. O. Booth was appointed patrolman in the place of James M. Munsen of First Precinct, Brooklyn, resigned. David H. Martin in place of Richard Austin, Second Precinct, and Edward Gullifair was appointed doorman of Eighth Precinct, Brooklyn.

A request was made by Detective Van Wagner of

Brooklyn, to receive a reward of \$250, which was offered for the arrest and conviction of the murderer of Henry Ganker. On motion of Mr. Bowen \$200 was allowed to the officer, and \$50 to the Police Fund.

Paerolmen Gerst of the Twenty-sixth Precinct, M. B. Wilson of the steamboat squad, and John Jourdan of the Sixth Precinct, were promoted to the rank of pergeants. David Blair, M. S. Farnham, and G. W.

The law provides that in case the owners of places reported as nulsances refuse to clean the same, after being duly notified, the Board of Metropolitan Police may, by its order in writing, cause any tenement house to be cleansed, at any time after three days' notice has been served upon the owner to clean the same. The expense, when the cleaning or taking down of any edifice is performed under the orders of the above Board, the Controller is required to pay, and the bill of expense, countersigned by the Controller, with a description of the premises and real estate thereof, to be iled with the Clerk of the County, the same becoming and continuing to be a lien for the amount of such repairs, with interest, upon the said premises, having the same effect as a judgment of a Court of record, until

PROBABLE MURDER AT STATES ISLAND .- On Sun day morning a citizen of Rossville, named John Wood. was found badly wounded in a farm-yard about three miles from his residence. He had received a deep cut across the temple, and beside this wound his body was badly bruised. A place in the road near by bore evidences of having been the scene of a severe struggle. to the standard. They neglected to put in the right | There is little doubt that Mr. Wood was attacked in

the road, struck senseless and robbed. His pockets were found to have been sifled, and his clothes torn pearly off. He was a sober, industrious man, much esteemed in the neighborhood It is exceedingly doubtful if he recovers from his wounds. Every exertion is being made by the an horities of Richmond County to detect the persons who committed the assault.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION .-This Society met on Monday night at its rooms, Clinton Hall, when after some preliminary business the Rev. Mr. Brooks read a very interesting paper, entitled "Absolom, the Fast Young Man." The views of the speaker of the evening elicited considerable discussion, in which half so dozen or more gentlemen took part. One of the speakers thought that the fast young men of the past and present day had still faster parents, and their headlong course was the result of bad example.

Another thought that our institutions, and in fact everything about our country, tended to facilitate this fastness in young men. Here fortunes were made in a day, and from a tin peddler a man might, in the course of a few years, rise to a seat in Congress, and there terminate his existence in a duel. It was not so in England and other countries, where fortune and fame were only earned by years of labor and perseverance. The discussion throughout was very interesting and was listened to with marked attention by the audience.

TRIAL OF A PATENT FIRE ALARM AND POLICE TELEGRAPH.-Yesterday afternoon a number of members of the Common Council and others connected with the city government, proceeded, by invitation, to the ball-room of Tammany Hall. for the purpose of witnessing the trial of Gamewell's patent Fire Alar n and Police Telegraph, in the arrangement of which for the purpose mentioned, the past four or five days have been spent by the proprietors. The apparatus is of the full size, being intended for the City of New-Orleans, and is simply detained here on exhibition. It has been in working order in the City of St. Louis for eight years, in Boston for some years, and in Philadelphia also for several years. At the appointed hour the engineer in charge explained the various parts of the machinery and illustrated the working of it. It consists simply in placing numerons square cast-iron boxes, not unlike ordinary postoffice boxes, throughout the city, of which is a crank that may be inside turned by any citizen on getting a key of the policeman on that beat, at the Station-House, or of the "principal key-holder," usually a private citizen, upon whose house the box is fixed. The turning of the crank indicates the number of the district by telegraphing long marks, and the number of the box, which is supposed to indicate the street corner, by dots. The crank may be turned either way, and the signals are repeated, by turning it more than once around. The central operator, who is the only man needed to look after the operators for the whole city, and who must be on hand and prompt in repeating the first signal, can ring all the fire bells in the city, however numerons or distant they may be, together with small bells in each of the street boxes, and in the bedrooms of officials as are required or wish to be present at every fire, by simply turning an indicator on a district dial, and another on a station dial, to a certain point, and then pulling a trigger. The trigger beneath the district dial rings all the great fi e bells; the one beneath the station dial rings the little bells at the public offices, Sta tion-Houses, and the street boxes. The police are furnished with special keys with which they can communicate messages by signal numbers, and call for men, in case of needing them, from and to any part of the

nicase of needing them, from and to any part of the city, and indicate the corner of the street where they are wanted.

The Washington-street Homicide,—Coroner Schirmer yesterday held an inquest on the body of Henry Dedrickson, the Swedish saifor who was fatally beaten on the night of the 7th inst., at the corner of Washington and Carlisle streets. The four prisoners, who have been under arrest since the occurrence, were confronted with the witnesses, but as the latter failed to identify them, they were discharged by the Coroner. Two men, named James Farrell and "Scotty," who were arrested on anspicion of being implicated in the affray, but who were subsequently discharged, immediately on regaining their liberty flod the city. It is supposed that they have gone to sea. In consequence of their flight, the jury returned the following verdict: "That the deceased came to his death from injuries received at the hands of some persons unknown to the jury; furthermore, we suspect that William —, alias 'Scotty,' and James Farrell are implicated either as principals or accessories to his death." Warrants have been issued for suspect that William —, alias 'Scotty,' and James Farrell are implicated either as principals or accessories to his death." Warrants have been issued for the arrest of the two men, but it will probably be a long time before they will be taken into custody.

THE MISSING, MAN,-No tidings have yet been learned of Mr. Cornelius G. Kolff, of the firm of Kolff & Persuhu, who has been miseing since Wednesday morning last. At that time he was seen to take a 9 o'clock boat for Staten Island, for the purpose of superintending some work which was being done on a cottage which he was about moving into. He had been sick of a fever for some days previous, and thought the trip would aid him. Mr. Kolff, while in Mexico, received a severe wound in the head, and it is said that be has occasionally exhibited symptoms of mental aberration. It is feared that this, in connection with his recent sickness, may have rendered him temporarily insone, and that while in that state of mind he may have committed snicide. He had but a small amount of money with him.

RESIGNED .- On the 19th instant, Mr. Amos Pilsbury, one of the newly appointed Police Commissioners, sent in his resignation to the Governor. The latter, in reply, while regretting that Mr. Pilsbury should fee called upon to take this step, accepted the resignation, and signified his intention to fill the vacancy at his earliest convenience. It is understood that Mr. Pilebury resigns for the reason that he now receives a salary of \$4,600 per year as Warden of the Albany Penitentiary, which position he would be obliged to resign if he consented to act as Police Commissioner, at \$3,000 per annum. The fact that he was not elected President of the Board of Commissioners undoubtedly had some weight in inducing Mr. Pilsbury to take this

LAFT IN A HACK .- Between 9 and 10 p. m. on Monday evening, Officer Josling of the Fourth Precinct was hailed in Chatham square by Hackman No 222, who told him that a box had been left in his back, and asked him to take charge of it. Mr. Josling took the box to the Station House, and on examination it was found to contain the body of a child, apparently still-born. Coroner Gamble held an inquest yesterday, and a verdict was rendered to that effect. It was then given in charge to Mr. Kellogg for burial.

TWENTY-SECOND WARD CAMPAIGN CLUB,-The second meeting of this club, which is composed of Republicans adhering to the Philadelphia platform, some stray Americans, Irishmen, Germans, and a number of persons Whiggishly inclined, was held last night at No. persons Whiggshly inclined, was held hat night at No. 624 Eighth avenue, the Secretary, Mr. Alfred Lancaster presiding. The roll books were opened, and from 40 to 50 new names were registered, making the total membership upward of 60, after which the meeting adjourned for one week, with the intention of continuing to hold weekly meetings until Fremont, Saward, or some other Free Soil Free dent shall have been elected. Subsequent to adjournment the German Republican Association of this Ward held a meeting in the same room, and passed resolutions condemnatory of the Syracuse Convention, in refusing to appoint any German candidates to the Chicago Convention, they being of the opinion that the numbers in this state should command a greater respect.

THE GLASS-CUTTERS AND THE LYNN STRIKERS .-Last evening a meeting of the United Glass-Cutters' Association was held at the Fourteenth Ward Hotel. corner of Grand and Elizabeth streets, the President John Tyler, in the chair. After some conversation on the duty of the Association in relation to the Lynn Cordwainers, a resolution appropriating the sum of

was adopted, and the amount ordered to be paid over to Controller Haws, for that purpose. No farther business of public importance was transacted. About 100 plass-cotters were in attendance. Glass-cut are earn from \$7 to \$15 per week, and average about \$11

NEW REFORMED DUTCH CHURCH,-To night the chapel designed to be occupied by the " Prospect-Hall Reformed Datch Church," and located on the Third avenue, between Eighty seventh and Eighty-eighth. streets, will be dedicated, with appropriate services, including a sermon by the Rev. Dr. Tuos. E. Vermilye. The congregation who are to occupy this chapel will ere lorg, erect a statelier and more commodious additce, but have completed the present building for their place of worship while they are gathering strength and nambers. It will seat about three hundred people, and is neatly and tastefully adapted to its purpose.

LADIES' UNION AID SOCIETY OF THE M. E. CHURCH .- The Nigth Annual Report of this charitable Association is before us. The object of the Laties' Union, by the act of incorporation, is the establishing in New-York City of an institution where the aged and infirm members of the M E Church may be provided with a comfortable residence, support, employment, medical, and other necessary care, with those religious and church privileges which such persons have been accustomed to enjoy as members of that church. The building of the institution is located in Forty-recond street near Eighth avenue, and is said to be a cheerful place, well ventilated, and adapted to the purpose for which it is used. The cost of sustaining the Society's operations has not averaged more than \$2 per week for each infirm person supported. During the year just closed, serious pecuniary embarrasement, under which the institution labored at the commencement of this period, have been much lightened. From the fair held at Niblo's last December, a handsome amount was realized; \$18,476 32 in all have been received and exper ded for the purposes of the Society within the fiscal year embraced in the report.

ATTEMPTED SUICIDE.-Mary Van Kamp, a resident of Brooklyn attempted to commit suicide yesterday afternoon by jumping off the bridge at the Fulton Ferry. The cause of her rash attempt to take her life was on account of some difficulty she had with her husband. Officers Perkins and Reynold of the Second Precinct. succeeded in rescuing her from a watery grave, and conveyed her to the Station-House where she was properly cared for.

CHARGE OF BIGANY .- Thomas Lee, a laborer, CHARGE OF BIGANY.—Thomas Lee, a laborer, or have a management to leave the city with Catharine Breman, an Irish domestic, but when they were about to step about a North River atenuboat, Mary Ann Lee of No. 43 Henry stree appeared it a great state of excitement, and charged Lee with bigsary. She histed that he had married the woman Brenna which the latter denied. Officer Ropes of the Stambast Squarrested Lee, who was subsequently taken before Justice Concily, and committed to prison for examination. Catharine Brennan was sent to the House of Detention as a witness. Le and his wife have not lived together for some years past.

FOUND DROWNED. - Coroner Schirmer held an in quest yesterday on the body of an unknown man, who was found drowned at the foot of Cliston street, East River. Deceased was evidently a laborer. He was five feet ten inches in hight, stout bult, and had saudy heir and whickers. A verdict of "Supposed drowning" was remieted.

WHO LIKES MONEY? Because they present WHO LIKES MONEY? Because they present you with Money (Butwer's celebrated play), in elegant tyle, and with an admirable cast, at BARNUM's MUSHUM this afternoon, Mr. C. W. Cla'ke appearing as Evelyn. JEANIM DEANS to night ggain. This is the last week of that charming and successful moral drams, and no one should miss seeing it. Of the What is it, and the other cariosities there, we need say nothing.

A warrant was issued for his arrest.

BROOKLYN ITEMS.

INSTALLATION.-The Rev. Theodore L. Cavier was last evening installed as pastor of the Park Presbyterian Charch, Brooklyn This charch, which is located at the corner of De Kalb and Carlton avenues, has been in existence some time, but has never before had a regularly installed pastor. The services last evening were opened with prayer by the Rev. Mr. Robinson, after which the Rev. Prof. Hitch:ock delivered the installation sermon. The usual ques ions were then propounded to the Rev. Mr. Cayler and the congregation, by the Rev. Mr. Robinson, which being answered in the affirmative, Mr. Caylor was declared pastor of the Park Church henceforth. The charge to the new pester was delivered by the Rev. Mr. McLane, after which the Rev. Dr. Carpenter dismissed the congregation with a benediction. The church was crowded to excess, there being members of many other denomipations present. Some fine music by the choir contributed to the interest of the occasion.

ALLEGED FRAUDS UPON WESTERN AND SOUTH-WESTERN LIFE INSURANCE COMPANIES.—For several weeks past rumore have obtained currency that frauds to an immense extent have been attempted upon certain Western and South-Western Life Insurance Companies ly an organized gang of adroit swindlers, whose headquarters have variously been in Boston, Philadelphia, Brooklyn, and New-York, and whose intended exploits, had they been successful, would have realized for the scoundrels thousands upon thousands of deliars, reaching a maximum infinitely greater than that proved against Dr. Palmer, the po'soner, who a few years since was executed in England for the murder of young Cooke, of sporting and turf celebrity. The facts in connection with these fraudulent operations have, for some reasons best known to the Detective force and the lawyers engaged in their unraveling, been carefully concealed from the public ear, but it is now probable that they will soon be disclosed in all their enor-mity, and the almost fabulous romance said to surround them. A commission has reached New-York for the purpose of taking depositions on behalf of the several incorporations whose interests are at stake in the premises, and the investigation will probably be commenced at the office of the Commissioner on Wednesday or Thursday next. Mr. John Lomas of Brooklyn, who was a prominent attorney and agent for the defendant in the Carstang and Snaw breach of-promise case, is engaged as one of the counsel for the Insurance Companies.

SPECIAL TERMS OF THE SUPREME COURT .- The days designated for the Special Terms of the Sapreme Court are Thursday, April 26, at 91 o'clock, a. m., Monday, April 30, and Thursday, May 3. No other terms will be held than those above designated until the first Monday in May.

THE HUDSON-AVENUE FERRY .- An injunction was applied for in the Supreme Court yesterday, to restrain James Wil son and others, the grantees of a ferry privilege at the foot of Hudson avenue, from enerosching upon the property of the of Hudson avenue, from encrosching upon the property of the Brooklyn Gas-Light Company adjoining. The defeadants, in repairing the ferry slip, are charged with driving pilos so as to obstruct the water privilege of the Gas Company. A temporary injunction was gratted, returnable on the 1st of May. The progress of the work will be suspended meanwhile.

DEATH OF A WELL-KNOWN CITIZEN.—Mr. Ralph Malbone, a well-known citizen of Brooklyn, died at Canarsis on the 23d inst, where he was paying a visit to a friend. He was about 15 years of age.

DANGEROUS ASSAULT .- A man named John Headley was taken before Justice Ryder yesterday charged with havin struck Mr. P. Schneider on the head with a stone, inflicting severe if not dangerous wound. He was held for examination.
